

Protect Our Planet

Fun ways to celebrate Earth Day, April 22

Earth Day is Tuesday, April 22. It is a special day when people around the world work together to take care of our planet. You can help too! Ask an adult for help to celebrate Earth Day with one of the following activities:

- **Eco-Friendly Crafts** – Use recycled materials to make fun crafts like homemade planters, bird feeders, or reusable shopping bags.
- **Earth Day Bake Sale** – Bake tasty treats using local or organic ingredients, and wrap them in eco-friendly packaging. Sell them to raise money for a good cause.
- **Recycling Drive** – Gather paper, plastic bottles, and cans, then take them to a recycling center. Recycling helps turn old items into something new.
- **Earth Day Walkathon** – Join a local walkathon to support Earth Day. Ask family and friends to pledge donations, and give the money to your favorite charity.

Eggs Add Up!

Can you add up the coins in each egg? Solve the problems to see how much money is hiding inside!

Fun Spring Facts

Spring always begins late in March in the United States, but its actual start date changes on leap years.

Other parts of the world celebrate spring at different times. Australia celebrates spring from September to November.

Spring brings out the bees, which are super important for our environment. They help flowers, plants, and trees grow.

We move our clocks forward in the spring, which gives us more time to enjoy the sunlight in the evening.

We often get a lot of rain in the spring because warmer air holds moisture better than colder air.

Lots of cuddly animals have babies in the spring, including deer, birds, and rabbits.
