

Candy Budget Challenge

When you go shopping for Halloween candy, it's important to make smart choices with your money. How will you know how much money you have and how much candy you can buy? Creating a budget can help you decide how much you can spend. When you learn to follow a budget, you practice the same skills adults use when they shop for groceries or plan for birthdays and holidays.

Pretend you have \$1, \$2, \$5 and \$10.

Think about how much each of the following Halloween candies cost, then decide how you would spend \$1, \$2, \$5, and \$10. Which candies would you buy?

Lollipops	\$0.50	Licorice	\$1.00
Sour candies	\$2.00	Taffy	\$1.00
Chocolate candies	\$1.00	Gummy bears	\$2.00
Jelly beans	\$0.50	Candy necklace	\$1.00
Caramels	\$1.00	Chocolate bar	\$2.00
Gumdrops	\$0.50	Candy corn	\$0.50

Why Are Some Coins Worth More Than Others?

Some coins are special because they are very old, made in small amounts, or have unique designs. These coins are called collector coins, and people are willing to pay more for them because they are rare. Collectors will often search for coins that tell a story about history, or show changes in how money was made. The fewer coins that exist or the more interesting the story, the more valuable they become. Look closely at your coins—you may find something special!

On October 15, South Carolina Federal Credit Union will join over 67,000 credit unions around the world in celebrating International Credit Union Day, an annual event to commemorate the credit union movement's impact and achievements.

This year marks the 78th anniversary of this annual event, which will be celebrated under the theme of "Cooperative Finance: A Steady Signal in a Noisy World."
