

# Save Small. Dream Big. at your Credit Union™

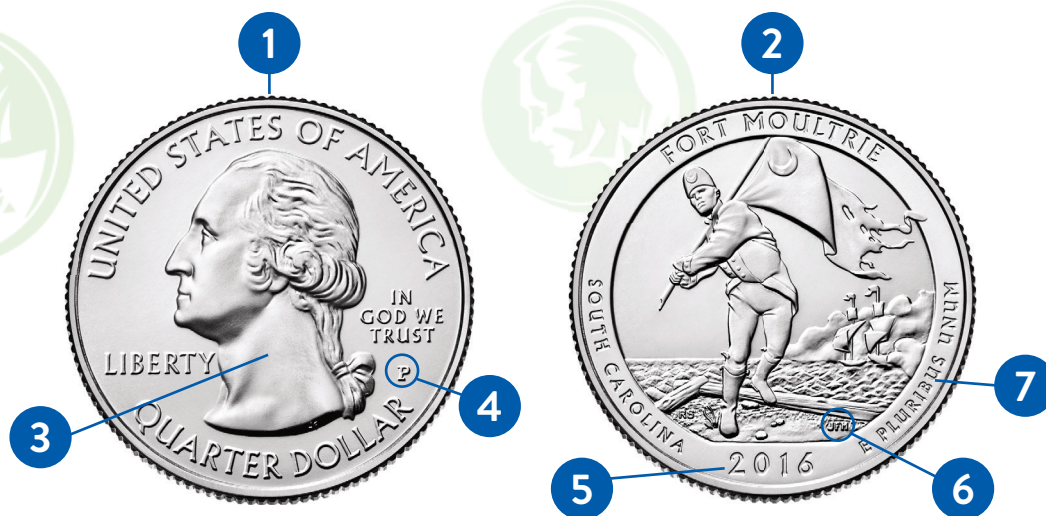

National Credit Union Youth Month™

This year's theme for National Credit Union Youth Month, "Save Small. Dream Big. at your credit union," is designed to show you how you can succeed at your dreams, no matter how big they are. Your [Kids Savings account](#) at South Carolina Federal Credit Union is a great place to watch your money grow over time. When you're ready to cash in on your big dream, your savings will be there to help make that dream a reality. We look forward to celebrating with you!

## Parts of a Coin

If you read the last edition of our *Kids Club* newsletter, you learned how to decode the United States dollar bill. In this issue, we are focusing on U.S. coins!

- 1. Obverse** – In a coin toss, this side of the coin is more commonly referred to as “heads.” This is the front side of the coin.
- 2. Reverse** – In a coin toss, this side of the coin is more commonly referred to as “tails.” This is the back side of the coin.
- 3. Bust** – On the obverse side of a coin is a bust, an image from the neck up, of a U.S. president or an American historical figure.
- 4. Mint mark** – The small letter on the obverse side of the coin shows which mint location made the coin. The two most common mint marks are “P” for Philadelphia and “D” for Denver.
- 5. Date** – The reverse of every coin will feature the year it was minted.
- 6. Artist/designer** – On the reverse side of some coins, you will see two or three small letters, which are the initials of the artist who designed and sculpted the reverse of the coin.
- 7. Inscription** – The reverse of every coin will feature the words *E Pluribus Unum*, which means “Out of many, one.”

## Fun Facts About Spring

We call the first day of spring the Spring Equinox or the Vernal Equinox.

Days begin to get longer in spring because the Earth tilts toward the sun.

Dandelions are one of the first plants to pop out. Get ready for wish making!

Spring marks the end of hibernation for animals like black bears.

Streams and rivers begin to swell from melting snow, especially near mountains.

Spring cleaning is where you get rid of the old to make room for the new.
